

A3 - Series 1: Backwards and Forwards

Button1 1 to 150

This code prints the numbers 1 2 3 4 5 6 7 8 9 10 in the textArea with the id output.

```
onEvent (▼ "b1to150", ▼ "click", function(event) {  
  setText (▼ "output", "");  
  for (var i = 1; i <= 150; i++) {  
    setText (▼ "output", (getText (▼ "output") + " ") + i);  
  }  
});
```

You need to CHANGE it so that it prints the numbers from 1 to 150.

Button2 150 to 1

This code prints the numbers 10 9 8 7 6 5 4 3 2 1 in the textArea with the id output.

```
onEvent (▼ "b150to1", ▼ "click", function (event) {  
  setText (▼ "output", "");  
  for ( var i = 10; i >= 1; i-- ) {  
    setText (▼ "output", ( getText (▼ "output") + " " + i ) );  
  }  
});
```

You need to CHANGE it so that it prints the numbers from 150 to 1.

Make the other buttons too:

- 55 to 170
- 170 to 55
- 100 to 150
- 0 to -60
