Code A Scene

You are working for a film studio and you need to create a scene for the movie. The movie can be a real movie, but it doesn’t have to be.

You may choose the scene and what you want in it.

Use all of the code you have learned in this unit, including methods, to effectively to create a scene for your movie.

Code needed:

1. drawLine
2. fillOval
3. drawOval
4. drawRect
5. fillRect
6. drawPolygon
7. fillPolygon
8. drawstring
9. setColor
10. Own color
11. setBackground

Comments needed:

1. Title
2. Subtitles
3. Notes to other coders

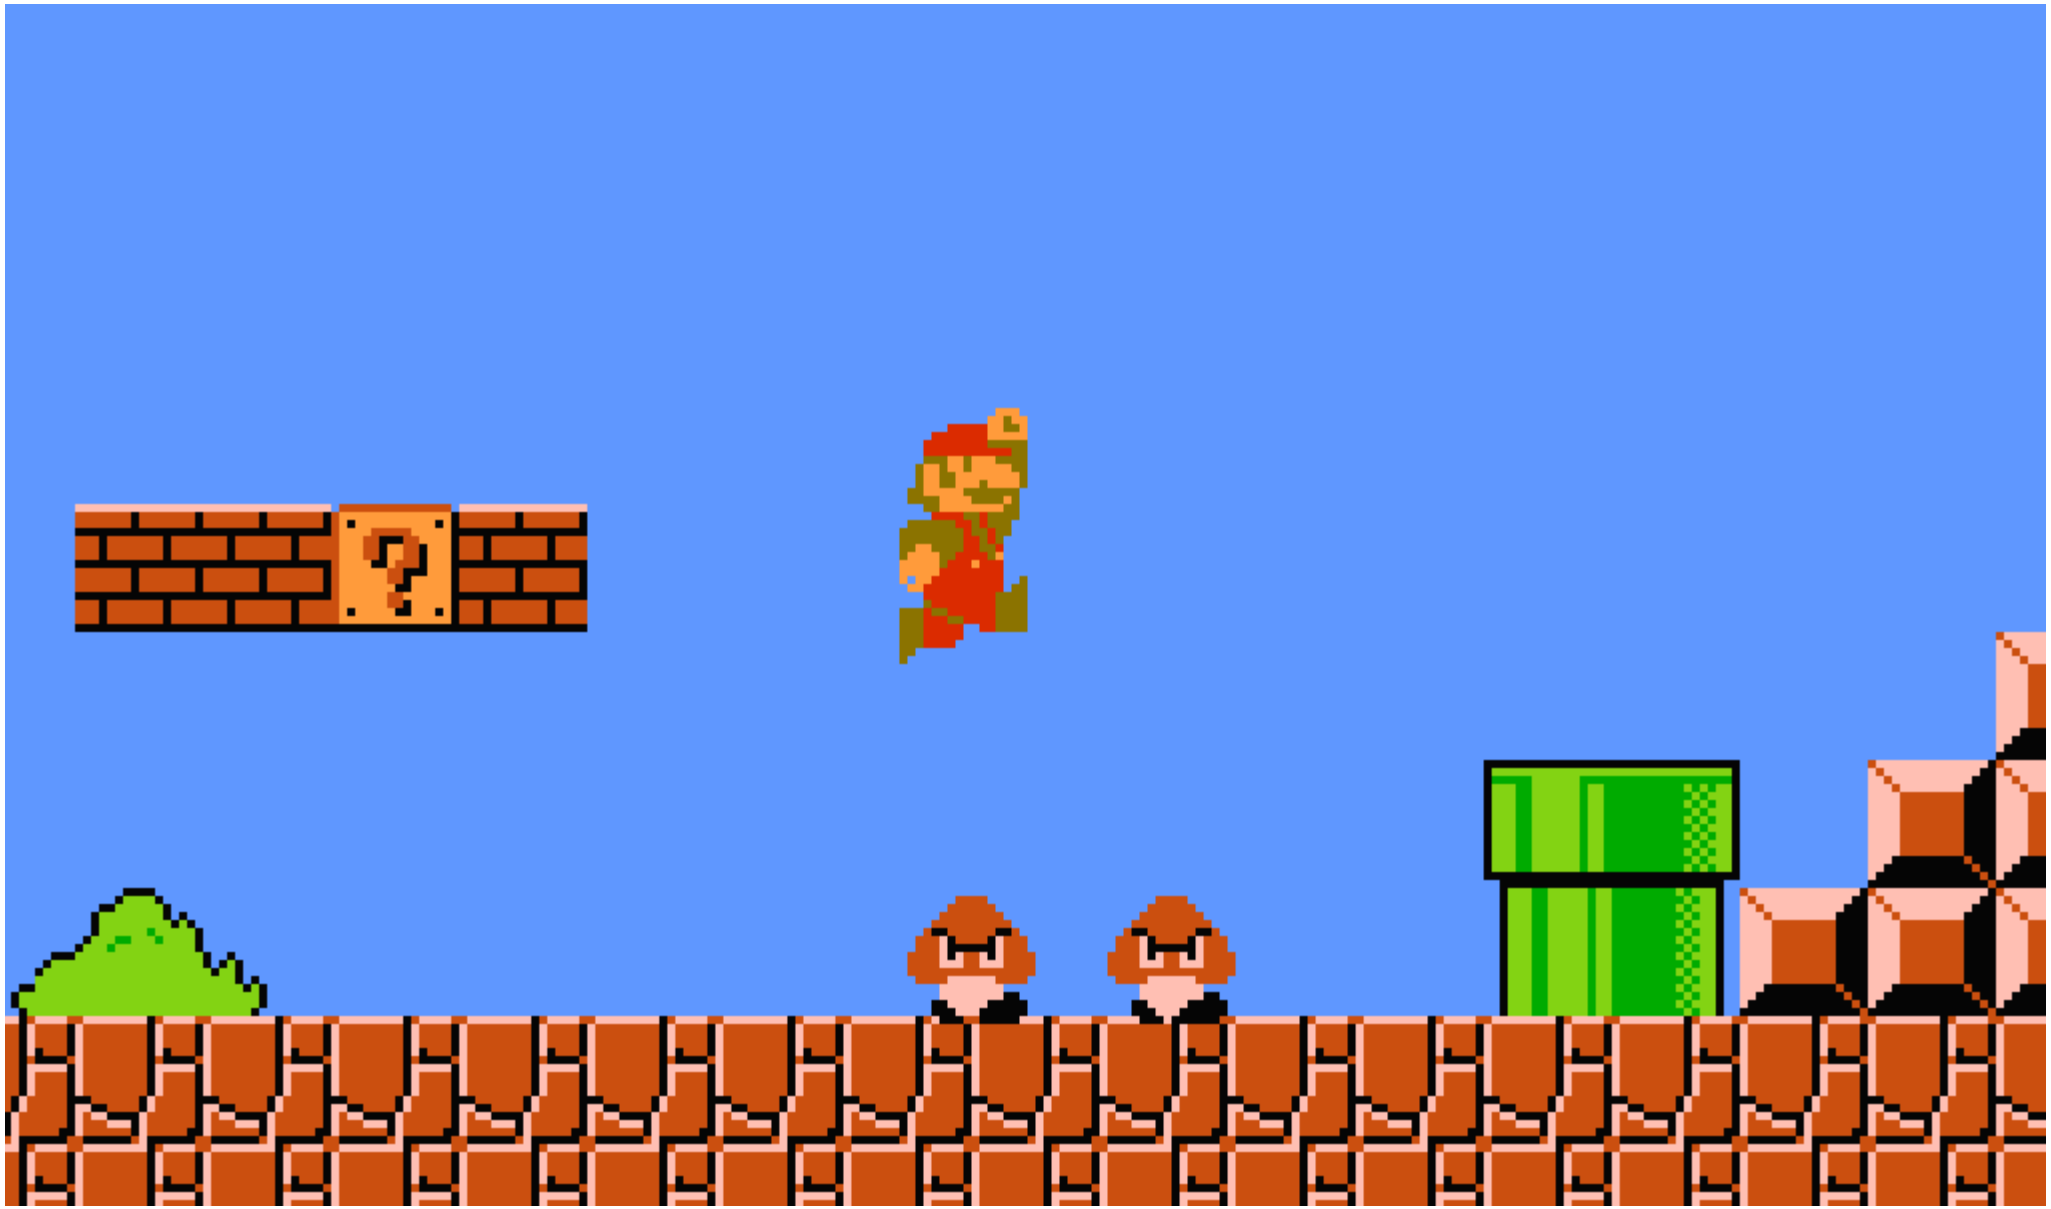

Methods needed:

1. Line
2. Oval/Rectangle
3. Polygon

Extra Features: (added to raise level of project)

1. Input
2. Popups
3. Gradient
4. Loops
5. Ifs
6. Music
