

A3. Knitting

Complete after sheet 1, 2 and 3.

Instructions

- This is another applet that doesn't work – it just looks at you.
- Add a title
- Add the picture
- Add the instruction (put spaces at the end to force the other pictures to a new line)
- Add the pictures and textboxes.
- Add the button.
- Change the background colour and resize the applet to an appropriate colour.

Starter Code:

```
import javax.swing.*;
import java.awt.*;
import java.awt.event.*;
import java.applet.Applet;

public class knitting extends Applet implements ActionListener
{

    public void init ()
    {
        JLabel pic = new JLabel (createImageIcon ("knitting.jpg"));
        add (pic);
    }

    public void actionPerformed (ActionEvent e)
    {
    }

    protected static ImageIcon createImageIcon (String path)
    {
        java.net.URL imgURL = skiRace.class.getResource (path);
        if (imgURL != null)
        {
            return new ImageIcon (imgURL);
        }
        else
        {
            System.err.println ("Couldn't find file: " + path);
            return null;
        }
    }
}
```
