Picture Task

1. How does System.out.println work?

```
public class ProgramName
{
    public static void main (String args[])
    {
        new ProgramName ();
    }

    public ProgramName ()
    {
        System.out.println ("Hello World!");
    }
}
```

Use System.out.println to make this book cover on the screen.

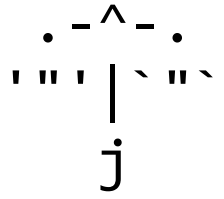
```
One Fish
<)))><
Two Fish
><))))>
Red Fish
<)))><
Blue Fish
><))))>
```

2. What do \t, \", \\ and \n do?

```
public class ProgramName
{
    public static void main (String args[])
    {
        new ProgramName ();
    }

    public ProgramName ()
    {
        System.out.println ("\tbananas");
        System.out.println ("\"wow!\" ");
        System.out.println("\n\n\na yellow fruit");
    }
}
```

Use System.out.println to print out this umbrella on the screen in Java.



3a. Use System.out.println to print out this bunny on the screen in Java.
