

I am a highly intelligent piece of paper. Let's play Noughts and Crosses.

I am X... and I go first...

Move 1: Go in a corner.

Move 2:

IF the other player did not go there

THEN go in the opposite corner to move 1.

ELSE go in a free corner.

Move 3:

IF there are 2 Xs and a space in a line

THEN go in that space.

ELSE IF there are 2 Os and a space in a line

THEN go in that space.

ELSE go in a free corner.

Move 4:

IF there are 2 Xs and a space in a line

THEN go in that space.

ELSE IF there are 2 Os and a space in a line

THEN go in that space.

ELSE go in a free corner.

Move 5: Go in the free space.
