

Splash Screen, Win Screen, Instructions Screen

- Lay these screens out in Powerpoint
- Screen snapshot them into Paint.
- Resize them: https://youtu.be/Cnq8_UyKYE
- Add them to your screens.

- Details follow.

A promotional banner for 'Space Flow Free' featuring a blue-tinted image of Earth from space with a bright light source on the horizon. The text 'Space Flow Free' is centered in a blue, sans-serif font with a reflection effect below it. A 'Click to Enter' button is at the bottom center.

Space Flow Free

Box added so I can see roughly what part will show on my screen.

Space Flow Free Instructions

Click on the planet, then on the spaces you want to fill. You have to fill the entire board with the correct colours.

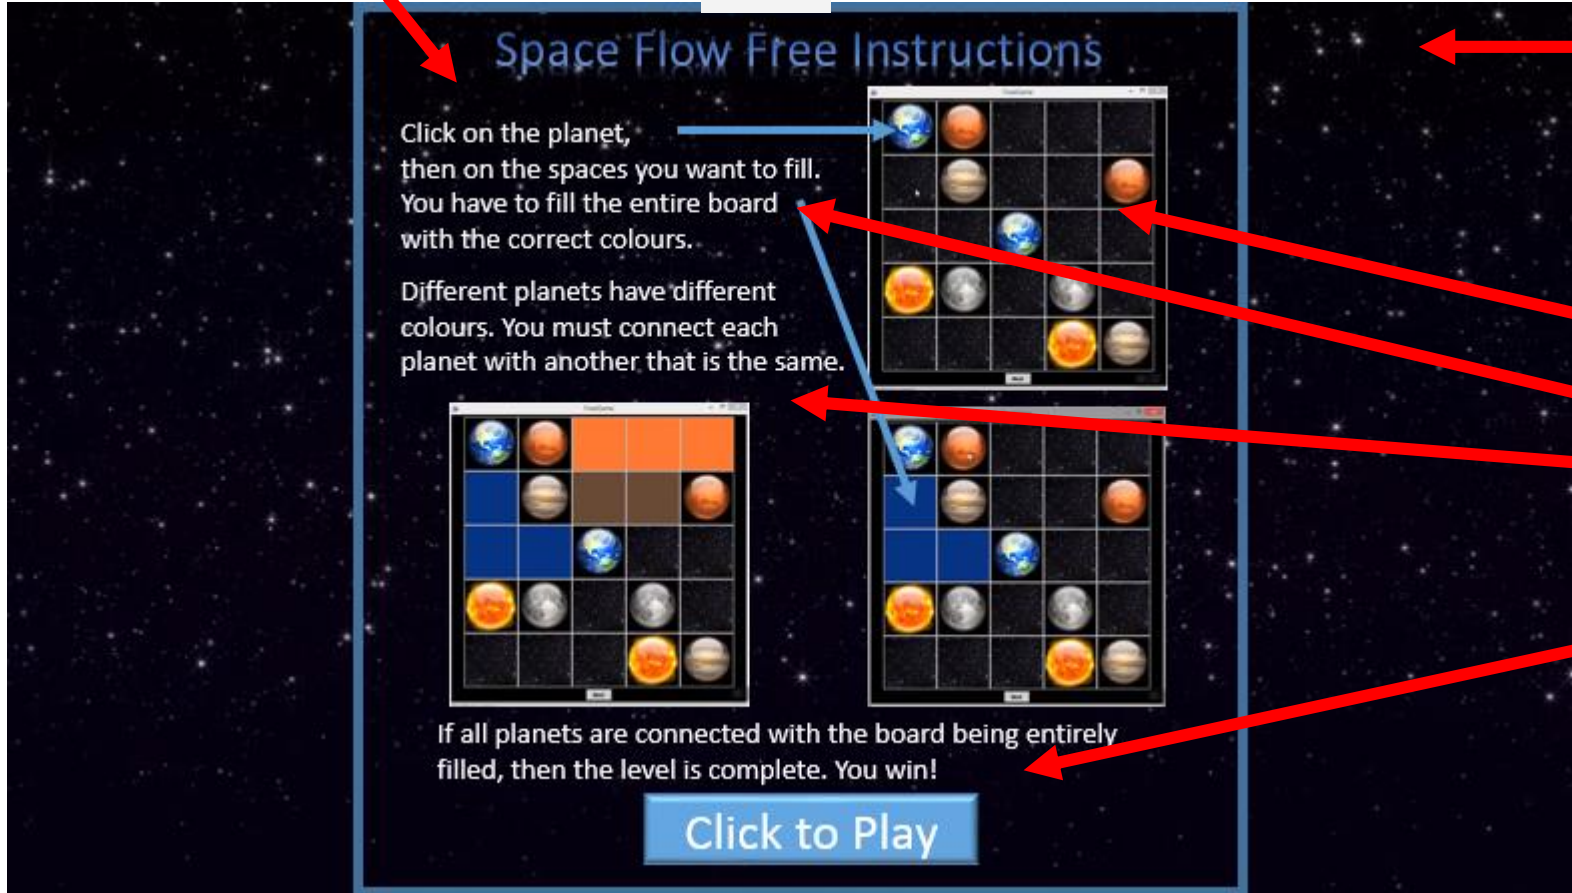

Different planets have different colours. You must connect each planet with another that is the same.

If all planets are connected with the board being entirely filled, then the level is complete. You win!

Resizing & Code Instructions

SplashInstructions

https://youtu.be/Cnq8_UyKYE

Code Details

```
public void screen1 ()
{ //screen 1 is set up.
  card1 = new Panel ();
  card1.setBackground (Color.black);
  JButton next = new JButton (createImageIcon("main.png"));
  next.setBorderPainted(false);
  next.setActionCommand ("s2");
  next.addActionListener (this);
  card1.add (next);
  p_card.add ("1", card1);
}
```

Screen simply becomes
one big button with a
giant picture.

Helps remove the button
border.
