

Personal Lists

Create an array for each of the following things and print them out.

1. The digits from 0 to 9, ordered from your most to least favourite.
2. The months, ordered from your most to least favourite.
3. The colleges you have considered, ordered from your most to least favourite.
4. The 8 movies/you tube videos you have watched recently, ordered from most recent to least recent.
5. The top 9 games you have played, ordered from best to worst.
6. The top 5 books you have read, ordered from best to worst.
7. The top 6 colours, ordered from best to worst.
8. The top 5 musicians/groups, ordered from best to worst.
9. Your top 3 characteristics.

```
public class toplists
{
    public static void main (String args[])
    {
        new toplists ();
    }

    public toplists ()
    {
        String thingsToDo[] = {"code", "watch You Tube", "Snap chat", "Instragram", "Sleep", "eat pizza"};
        System.out.println ("My Favourite Things to Do");
        for (int i = 0 ; i < thingsToDo.length ; i++)
            System.out.println ((i + 1) + ". " + thingsToDo [i]);
        System.out.println ();
    }
}
```
