

Complex Linear Layout

- Create this screen.
- It has Buttons and TextViews.
- Your proportions should be approximately the same. The text should appear in approximately the lines.
- Use colours (but you can pick your own).
- Use padding and margins to make the buttons look similar to the screen shown.

Complex Linear Layouts

This screen is designed to test your linear layout abilities. It can be done with the emulator if you wish.

This Is A Series Of Buttons

Here are some more things that are a bit challenging. Good Luck.
