

Is your ICS4U project ready to be handed in?

1. Does it have an app icon?

Instructions here: http://www.gorskicompsci.ca/ICS4U/4_App1/ppt_App_Finishing.pdf

Video here: https://www.youtube.com/watch?v=ey10_1s-Xsg&feature=youtu.be

2. Are **all** of the backgrounds **on all of the screens** the exact same colour or exact same picture?

3. Are **all** of the buttons **on all of the screens** the exact same colour?

Do they have the same font?

Are all of the similar buttons similar sizes?

None of them should be the default colour.

4. Do ALL of your **pictures** have the same theme and look? This improves consistency.

Pictures with the same theme and look include:

Background

AppIcon

GridPictures

Picture on Splash Screen

5. Are your **instructions** done?

They should be more than 2 sentences.

There should be multiple paragraphs – the instructions should be broken up into sentences.

Are there multiple pictures of your specific App? Is each picture labelled?

Did you explain how to use each of your buttons on the game screen?

Try using a scroll view: <http://www.gorskicompsci.ca/ICS4U/ExtraFeatures/ScrollView.pdf>

6. Are your **comments** complete?

Do you have 3 title comments (Name, Date, Purpose) at the top of every java file?

Do you have comments before every method in all of your java files?

Add good comments to your XML: (title, before sections of the screen)

<http://www.gorskicompsci.ca/ICS4U/ExtraFeatures/CommentsinXML.pdf>

7. Is your **code properly formatted**?

Did you indent the code in each java file? (Code -> Reformat Code)

Did you remove any huge sections of blank spaces? (One blank line as a separator is fine, 5 is not).

Did you remove code that is commented out?

Are all of your methods under 30 lines?

8. Have you completed your **picture log**?

http://www.gorskicompsci.ca/ICS4U/5_Game/Design_PictureNamesLog.pdf

This is handed in on paper.

9. Have you completed your **screen design**?

http://www.gorskicompsci.ca/ICS4U/5_Game/Design_ScreenDiagram.pdf

This is handed in on paper.

10. Have you completed your **global variables log**?

<http://www.gorskicompsci.ca/ICS3U/Unit6/DesignGlobalVariableLog.pdf>

This is handed in on paper.
