# Feltron Report

Nicholas Feltron had a rather unique hobby between 2005 and 2014, he studied something about himself and produced an annual report on it. Indeed, his work directly impacted a number of self-tracking apps. If you have an app that creates a graph for you, it stems from his work.

http://feltron.com/ (click on the year to see the report)

Create this chart in your notes:

Year	Overall Subject	5 Variables measured	One of his graph topics
2014			
2013			
2012			
2011			
2010			

Look through his reports. Fill in the chart.

Show the chart to Ms. Gorski when you are done.

(Note…. Did you get any ideas for your final project?)
