

Count Me In

A video showing how this program works is here: <https://youtu.be/ywgABd6OLGk>

You will need to make a variable. This a place to store your current count.

How to make a variable:

<https://youtu.be/mBI-swHcFWg>

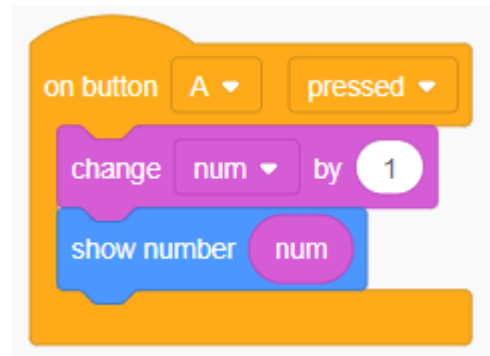

When you are done, it will look like this:

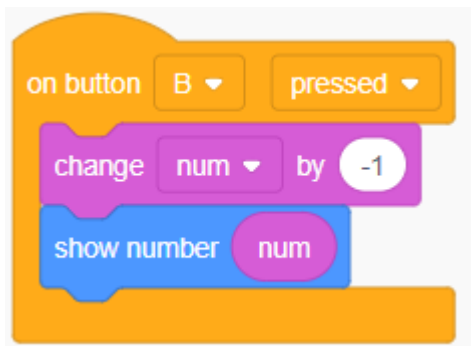

Start with a smiley face and show the current value of your num variable:

When the A button is pressed, increase your variable and show it on the screen:

When the B button is pressed, decrease your variable and show it on the screen:

Finally, when the A+B button is pressed,

- Set your variable back to 0
- Show the variable on the screen.
