Lightning

- Watch the loops and where they start and end.
- I put boxes around the parts that are in their loop.

```
on start
    set  haloDisplay ▼  to  to Halo HD with (60) ZIP LEDs
```

```
forever
    repeat  pick random (3) to (6)  times
    do
        for  index  from 0 to (60)
        do
            haloDisplay ▼  set ZIP LED  index ▼  to  white ▼
        haloDisplay ▼  show
        pause (ms)  pick random (15) to (50)
        for  index  from 0 to (60)
        do
            haloDisplay ▼  set ZIP LED  index ▼  to  black ▼
        haloDisplay ▼  show
        pause (ms)  pick random (15) to (50)
    pause (ms)  pick random (1500) to (3600)
```
